# RAMPRIYA.S

BE(CS)

## PROFILE

Dynamic and proficient java developer with a robust background in Core java, html, Css, JavaScript, and Mysql. Recent graduate with exceptional problem-solving skills and a relentless passion for continuous learning. Recognized for outstanding performance in technical challenges and dedicated to delivering high-quality, innovative solutions.

## INTERNSHIP

### PRUVITY (Flutter Automation)

2024 Feb - 2024 Apr

As an automation tester, I identified bugs and collaborated with development teams to fix issues and enhancing the stability and performance of Flutter applications.

### PHEONIX

2023 May- 2023 June

Intern with Hands-on Training in PHEONIX at Madurai, completed with strong foundational knowledge and practical skills in Java programming.

### WEBGAPP (Web Development)

2022 May - 2022 June

During my training at Webgapp, I developed a dynamic website using Html, Css and Javascript. Through this experience, I enhanced my front-end development skills and gained practical knowledge in web technologies.

## PROJECTS

### Wellness Chatbot

The "WELLNESS CHATBOT" is a web application designed to deliver vital healthcare informations and precautions. It is implemented using Python. This application enhances user engagement by providing accessible, reliable health resources.

### Rainfall Prediction using Machine Learning

Crafted a machine learning model for rainfall prediction, tailored for farmers to anticipate future precipitation levels in specific regions. This tool empowers agricultural decision-making by providing accurate forecasts, enabling proactive planning and resource management based on anticipated weather conditions.

### Generation of Client List

Developed a robust system for managing client records, empowering administrators with the ability to edit and delete client details as needed.

## CERTIFICATES

- Java SE 11 Standard Developer.
- C & Java Programming - Skillrack.
- Skillrack Certification on Mysql.
- Ebox - Database Management Systems .
- Tablaeu certification on Data Visualization.
